## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,6-8,10,11 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Ashley.

Ashley teaches a frame saw system comprising a plurality of space apart, substantially parallel blades, 70, connected to a frame, 25, and at least one support structure, 27, 28, which are tensioning rods, (col. 2, lines 68-72), supplied perpendicular across the blades and adhering to at least one of the blades in fixed relative position, clamps, which contact the two outermost blades, wherein the clamps comprise a plate, 41a, 42a, bolts, 53a tightened against the plate, (col. 3, lines 41-50), spacers located longitudinally between the blades, wherein the support structure is capable of being removed from the frame saw system as the blades are engaged in cutting.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3723

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 9,12 ,14 and 37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ashley in view of Lin

Ashley teaches all the limitations of the claims except for the blades comprising super abrasive containing segments, and the spacers comprising a polymeric foam. Lin teaches blades comprising super abrasive segments, 26, (col. 9, lines 34-48). It would be obvious to one having ordinary skill in the art at the time the invention was made to provide the tool of Ashley with super abrasive segments, as taught by Lin, in order to enhance the saw capabilities. It would have been further obvious to provide the tool of Ashley with the spacers being made of a polymeric foam, as an obvious matter of design choice.

#### ***Allowable Subject Matter***

Claims 3-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 38-40 are allowed.

#### ***Response to Arguments***

Applicant's arguments filed 4/4/08 have been fully considered but they are not persuasive.

The Examiner notes that the limitation of the support structure being removed or pulled away from the frame saw system as the blades are engaged in cutting, is a method step in an apparatus claim. The Ashley reference teaches all the limitations of the apparatus claim. If the frame saw system is not in use then the limitation of removing or pulling away the support structure will not have any patentable weight.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
